FROM:

SUBJECT:

Gentlemen:

Our July 27, 1967 letter advised that due to unforeseen problems the estimated cost of this contract would be exceeded.

During the additional time available we have reviewed the technical and cost status in considerable detail and have summarized this matter in the attachments to this letter.

We believe that it will be of mutual advantage if this matter can be reviewed and resolved at an early date. All work has now stopped on this project pending the outcome of your review.

If you need any additional information, please let me know.

Very truly yours,

25X1
